Glass Design è un'eccellenza Italiana nella produzione e nel design di lavabi e complementi d'arredo bagno. ***Glass Design** is an Italian excellence in the production and design of bathroom washbasins and interior decoration furnishings.*

Situata a Vinci, cuore della Toscana e città di "Leonardo da Vinci", **Glass Design** è stata fondata nel 1984 dalla famiglia Borsellini, dopo una pluriennale esperienza nella manifattura del vetro artistico.

Utilizzando materiali tecnologicamente avanzati, come il Silicio o l'Inox e, lavorando ad arte su materiali tradizionali, come il cristallo molato o il vetro artistico,

Glass Design contribuisce alla creazione di un nuovo stile dove l'accessorio, curato nei minimi dettagli, diventa il soggetto principale dell'ambiente, un vero prodotto "moda", apprezzato nel mondo ed esportato in più di 60 paesi.

Oltre 200 artigiani Toscani e una quindicina di vetrai muranesi appartengono alla filiera produttiva aziendale, permettendo di adattare ogni prodotto ad esigenze e richieste specifiche del cliente, con infinite personalizzazioni realizzando così, prodotti unici ed esclusivi.

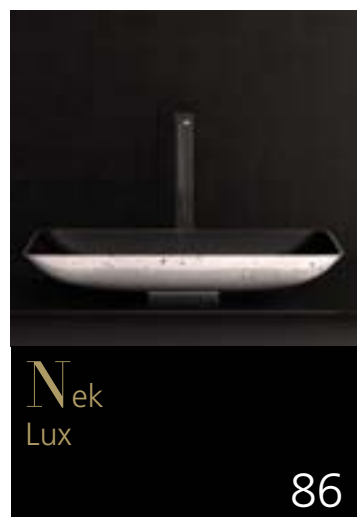

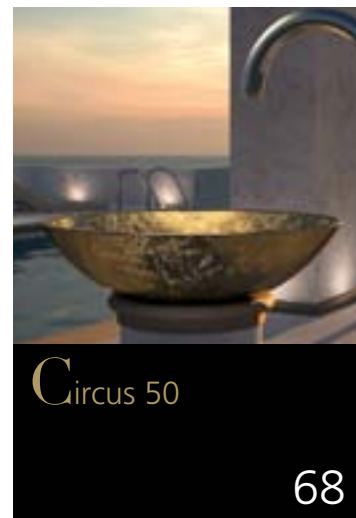

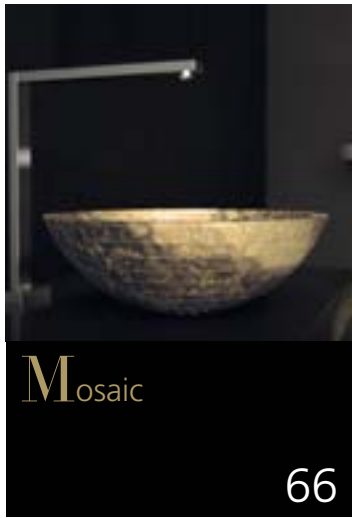

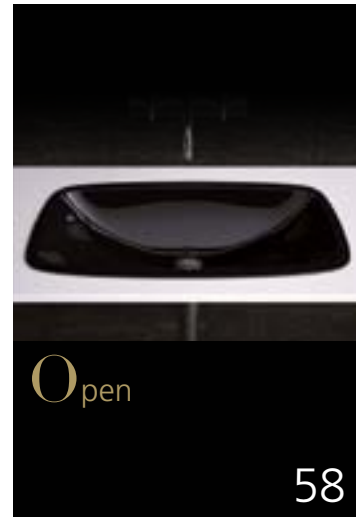

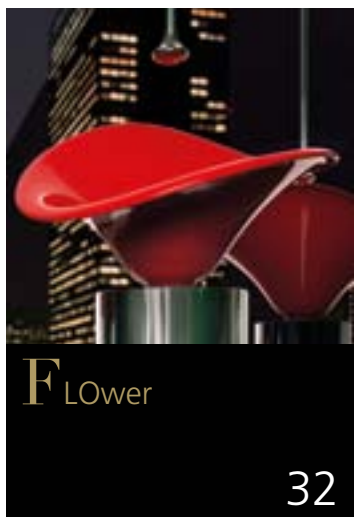

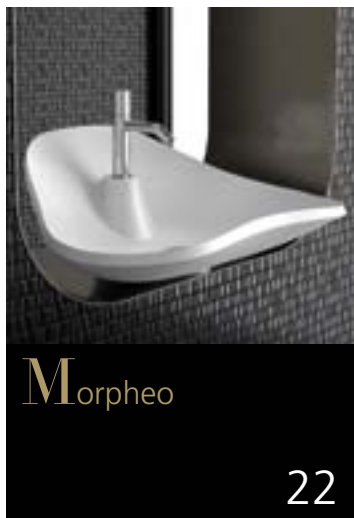

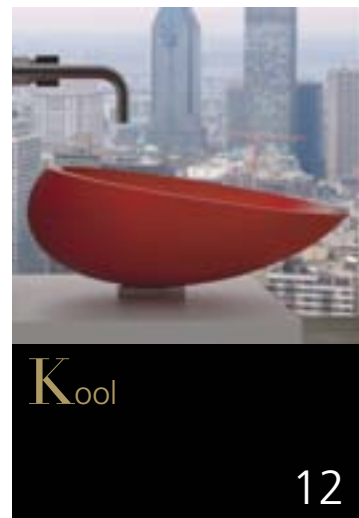

*Located in Vinci, in the heart of Tuscany and native town of "Leonardo da Vinci", **Glass Design** was founded in 1984 by the Borsellini family, further to a long tradition in manufacturing artistic glass.*

*Both by using technologically advanced materials such as stainless steel or silicone, and by working in an artistic way with traditional materials like the formed 24%pb crystal and the artisan glass, the company **Glass Design** contributes to the creation of a new style, where even the accessory is addressed in all details, becoming the main subject of the environment, a true "fashion" product, highly appreciated in the world and exported to more than 60 countries.*

Over 200 Tuscan artisans and more than 15 glassmakers of Murano work within the company's production chain, enabling the customization of each product to suit individual needs and specific requirements, in order to create unique and exclusive products.

Benvenuti nel mondo della "creatività"
Welcome to the "creativity" world

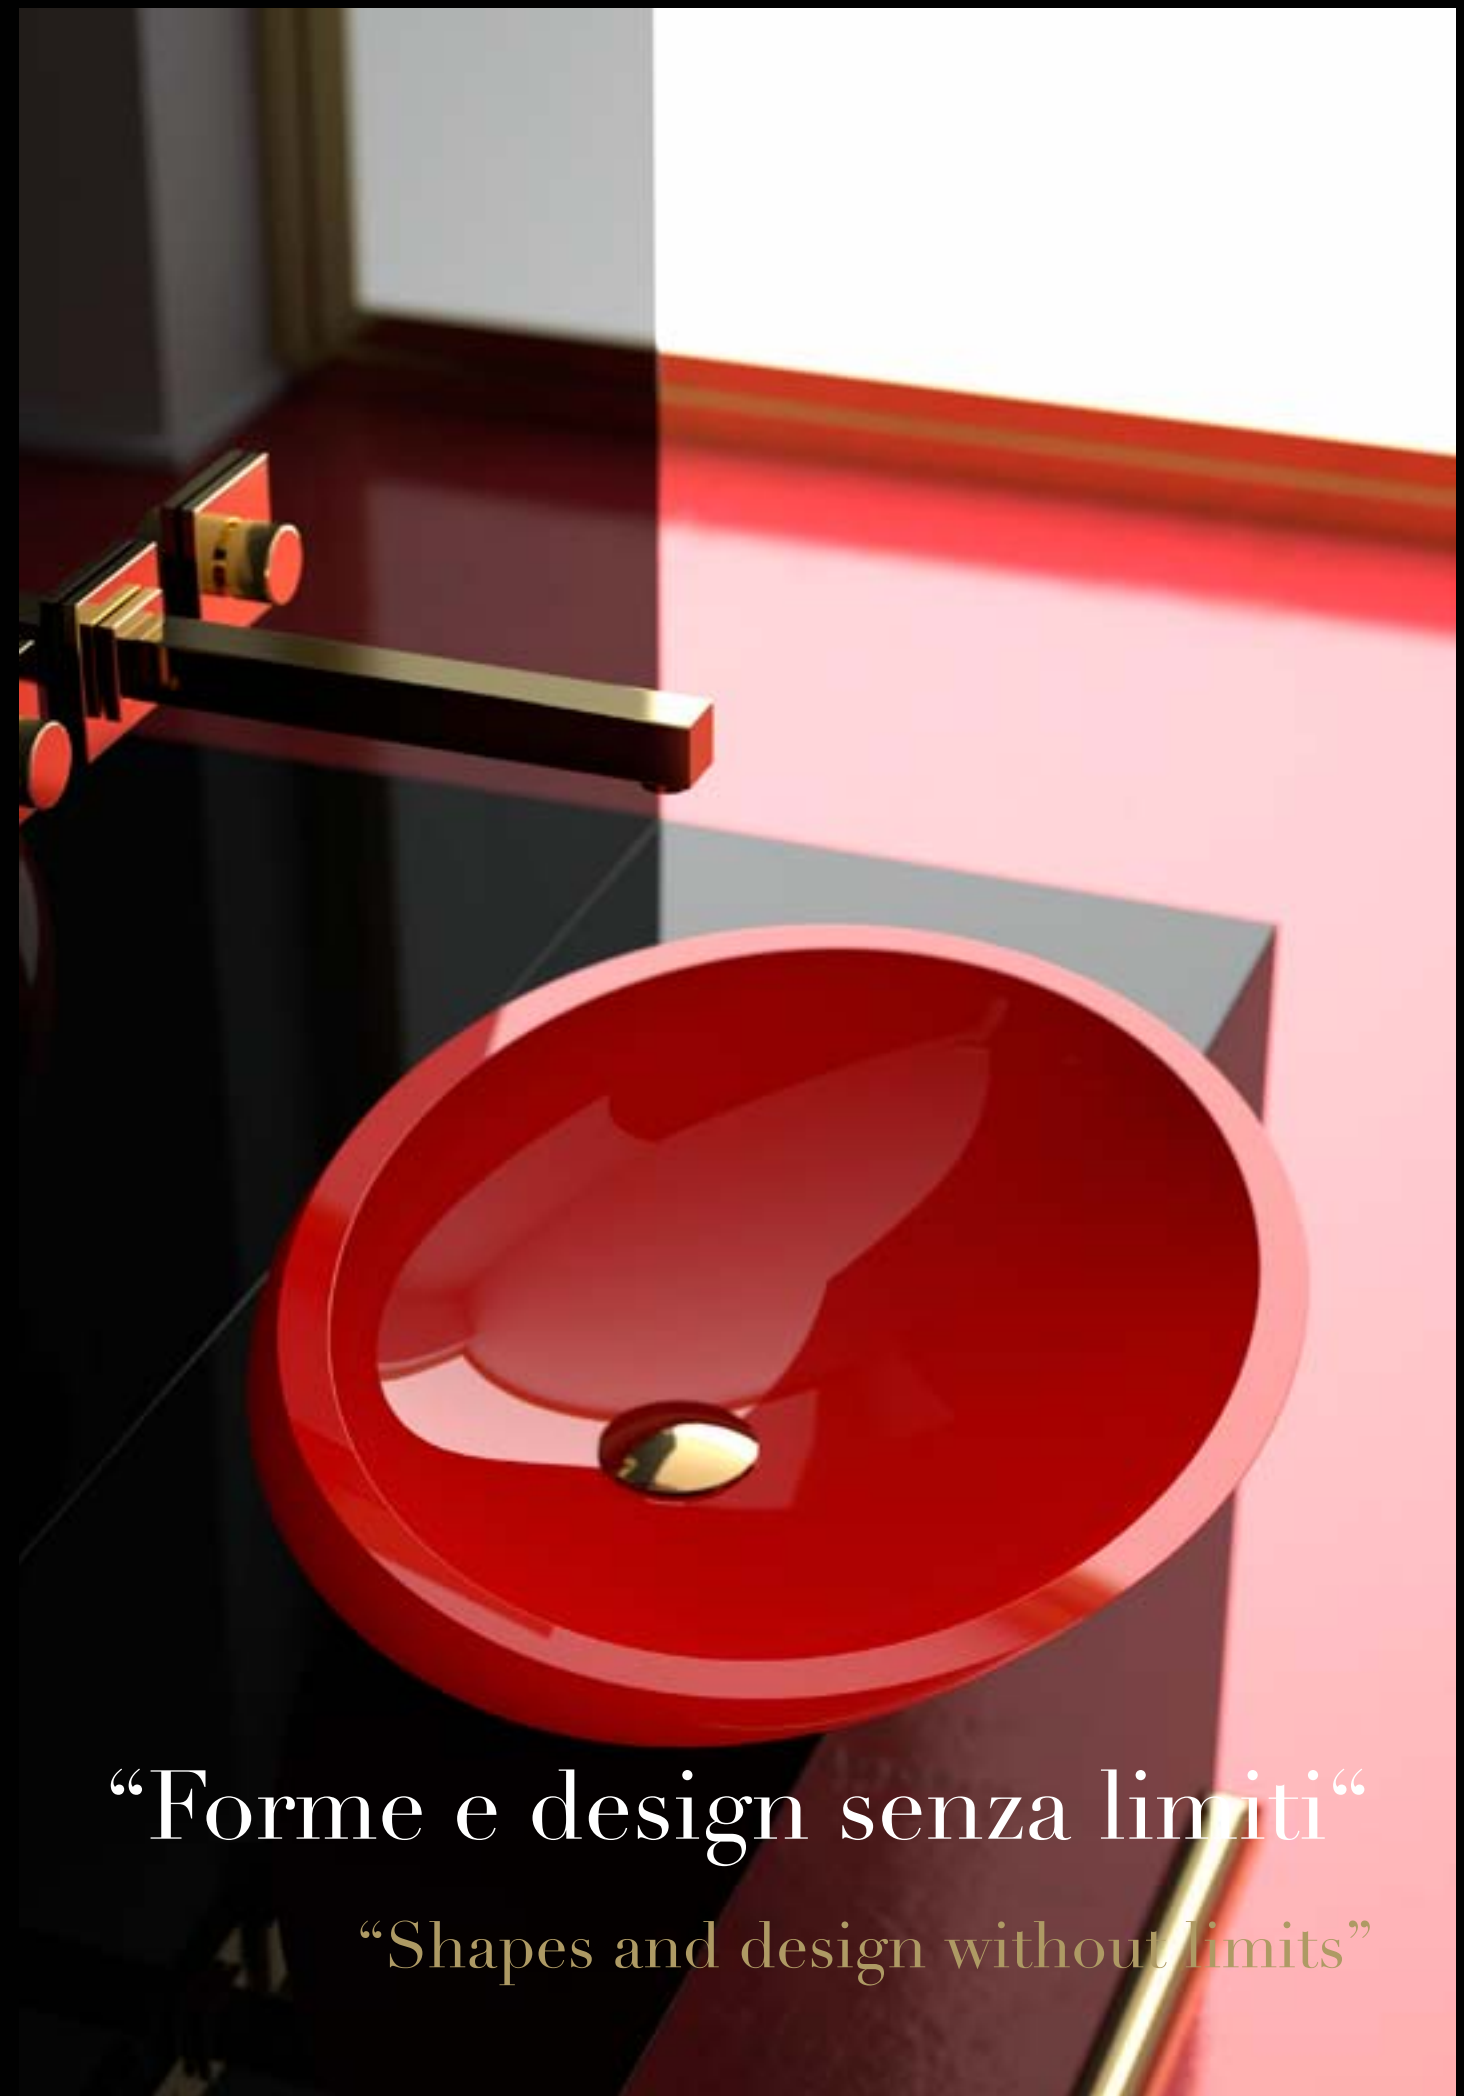

Vetro Freddo®

L' esaltazione della materia attraverso l'anima del suo colore.

A unique material. Expressive colours.

Il Vetro Freddo® è un materiale innovativo, composto da pigmenti vetrosi e resine. La sua caratteristica principale è la sua versatilità nell'adattarsi a qualsiasi tipo di forma. E' l'esaltazione della materia che si esprime attraverso l'anima del suo colore. La natura della sua materia, composta da pigmenti vetrosi e pertanto trasparenti, permette al VetroFreddo® di avere uno dei suoi principali punti di forza, e cioè la possibilità di esprimersi in colori trasparenti, traslucidi od opachi. Nessun limite quindi a livello cromatico e, oltre alla gamma di colori già esistente, è possibile scegliere in base alle proprie esigenze, uno dei numerosi colori presenti nella mazzetta "RAL". Il VetroFreddo® ha una resistenza termica di circa 100°C e può essere lavorato con gli stessi utensili del marmo o del vetro. Tutti gli oggetti in VetroFreddo® si possono lavare con qualsiasi tipo di sapone o detergente neutro non granulare, usando panni o spugne non abrasive. In caso di graffi superficiali, si può ripristinare l'oggetto intervenendo con un panno imbevuto di olio d'oliva o una semplice crema per le mani. In caso di graffi più profondi, è possibile ripristinare con una speciale carta vetro suggerita dal produttore in base al colore o al tipo di oggetto.

VetroFreddo® is an innovative material composed of glass pigments and resin. Its major characteristics are its versatility in adapting itself to any form or shape imaginable. The material's unique characteristics are expressed through the soul of its colour, which can be in clear, semi-transparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the "RAL" colour scheme can be chosen. VetroFreddo® is temperature resistant up to approximately 100°C and can be worked with and carved just as marble or glass. All objects designed with the material VetroFreddo® can be cleaned with any type of non-granular soap, using soft sponges or tissues. In case of superficial damage (scratches), the damaged area should gently be rubbed with a sheet soaked in olive oil. In case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for every colour and type of object.

Pert[®]
polimero tecnologico

Leggerezza e design sposano la tecnologia.
Light weight, spectacular design, innovative technology.

Il Pert® è un polimero tecnologico dalle qualità eccezionali, che unisce un basso peso specifico ad un'elevata resistenza meccanica. Particolarmente adatto in quei settori dove l'esigenza della leggerezza del peso è fondamentale (nautico, aereo, camper...). E' un materiale che permette la realizzazione di prodotti di elevato design, eseguiti a regola d'arte, rispettando angoli, raggi, bassorilievi e planarità con la possibilità di scelta tra una vasta gamma di colori, personalizzabili a richiesta.

Pert® is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (e.g. in nautical, aeronautical, camping, etc).

It is a material which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

TeknoForm®

L'esaltazione delle superfici da molteplici materiali.
Enhancement of material surfaces.

TeknoForm® è il materiale delle "texture", costituito da polimeri di varia natura, si esprime dando vita a prodotti monoscocca, esaltando le sue superfici. Dai mosaici alle pietre, dai marmi ai legni, tante soluzioni che danno vita a prodotti unici.

TeknoForm® is a polymer-based material. It expresses itself by enhancing the surface of its products.
From mosaics to stone, from marble to wood, an incredible variety of solutions can be realized in creating unique products.

Alumix[®]
lega d'alluminio

L'hi-tech, elegante e contemporaneo.
Distinguishing with contemporary elegance.

Prodotto hi-tech, elegante e contemporaneo che nasce da una fusione di lega di alluminio. La decorazione é realizzata a pennello, con la tecnica del graffiato, per ottenere un effetto bicromatico. Il bordo é spazzolato e lucidato a mano, per valorizzare l'anima ed il colore tipico di questo materiale.

A high-tech product, both elegant and contemporary, born from a merger of aluminum alloys. The decorations are brush-painted, employing a special brush technique in order to obtain a bi-chromatic effect. The board is brushed and polished by hand to enhance the soul and color, which are typical for this material.

MURANO[®]
glass

Dalla tradizione millenaria un oggetto unico e prestigioso.
Creating masterpieces with artisan traditions.

Il vetro di Murano è da sempre sinonimo di raffinatezza, leggerezza ed eleganza.

I maestri vetrai hanno saputo sviluppare tecniche di lavorazioni privilegiate, nel rispetto della millenaria tradizione che rende il vetro di Murano un prodotto unico, prestigioso e inimitabile.

Murano glass is a synonym for elegance and timelessness.

By combining innovative techniques with traditional artisan workmanship, unique, prestigious and inimitable objects are created.

Florence Glass
ATELIER®

L'ultima tendenza di oggetti decorati a mano.
Avant-garde trends in artisan product design.

Il progetto Atelier nasce dalla ricerca stilistica che una nostra equipe interna realizza rivolgendo lo sguardo al mondo della moda. I colori e le texture che vengono rappresentati nel programma sono la sintesi delle nuove tendenze.

The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research. The focus lays on enhancing crystal material with colours and textures of fashion trends.

Siliconio®

Il design tattile, morbido, elastico, sensuale.
Touch and feel - soft and sensual.

Siliconio®, ultima generazione della famiglia dei siliconi. Via al design all'insegna dell'elasticità, dalle forme più rigorose che sfruttano le grandi potenzialità di questa materia, a quelle più bizzarre e originali. E' un materiale dalle forti sensazioni tattili: morbido, elastico, sensuale, unico. Siliconio®, quale materiale elastico, può essere sottoposto a torsioni, allungamenti e piegamenti ed in corso di rilascio torna alla sua forma originale. Siliconio® è idrorepellente, antinfortunistico, resistente a temperature tra -60°C e +250°C, lavabile, autoestinguente, atossico, dotato di resistenza chimica eccellente. Siliconio® è Touch design per eccellenza.

Siliconio®, is the latest development in the family of silicone materials. Featuring unique designs based on its elasticity, it allows for rigorous shapes, benefiting from the great potential of the material, being amongst the most unique and original. It is a material of touch: soft, elastic, sensual – simply unique. Siliconio® can be bent and folded in any possible way, always returning to its original form once released. Siliconio®, is water-repellent and, soft, thus reducing the risk of injury, but also resistant to extreme temperatures from -60°C to +250°C, washable, self-extinguishing, non-toxic and with excellent chemical resistance characteristics. Siliconio® is 'Touch design' at its very best.

INCLUDED

Base anello cromata e piletta inclusi
Chromed waste and ring basement included

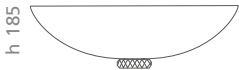

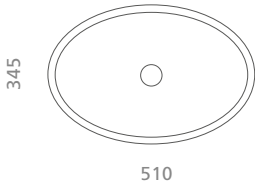

Realizzato a mano da maestri vetrai muranesi secondo le più rinomate tradizioni.
Eventuali piccole imperfezioni e variazioni di forma e colore sono testimonianza dell'artigianalità del processo produttivo.
Handmade by master glassmakers of Murano according to the most ancient and noble glass arts.
Any slight imperfections and variations in shape and colour highlight the craftsmanship of the production process.

“Materiali”
Materials

Design senza confini
Design without borders

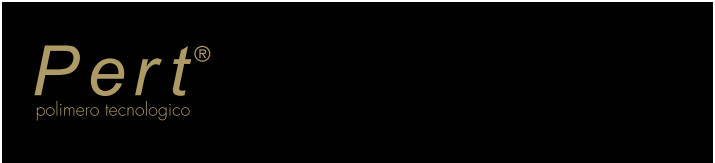

Il Vetro Freddo® è un materiale innovativo, composto da pigmenti vetrosi e resine. La sua caratteristica principale è la sua versatilità nell’adattarsi a qualsiasi tipo di forma. E’ l’esaltazione della materia che si esprime attraverso l’anima del suo colore. La natura della sua materia, composta da pigmenti vetrosi e pertanto trasparenti, permette al VetroFreddo® di avere uno dei suoi principali punti di forza , e cioè la possibilità di esprimersi in colori trasparenti, traslucidi od opachi. Nessun limite quindi a livello cromatico e, oltre alla gamma di colori già esistente, è possibile scegliere in base alle proprie esigenze, uno dei numerosi colori presenti nella mazzetta “RAL” . Il VetroFreddo® ha una resistenza termica di circa 100°C e può essere lavorato con gli stessi utensili del marmo o del vetro. Tutti gli oggetti in VetroFreddo® si possono lavare con qualsiasi tipo di sapone o detergente neutro non granulare, usando panni o spugne non abrasive. In caso di graffi superficiali, si può ripristinare l’oggetto intervenendo con un panno imbevuto di olio d’oliva o una semplice crema per le mani. In caso di graffi più profondi, è possibile ripristinare con una speciale carta vetro suggerita dal produttore in base al colore o al tipo di oggetto.

VetroFreddo® is an innovative material composed of glass pigments and resin. Its major characteristics are its versatility in adapting itself to any form or shape imaginable. The material’s unique characteristics are expressed through the soul of its colour, which can be in transparent, semi-transparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the “RAL” colour scheme can be chosen. VetroFreddo® is temperature resistant up to approximately 100°C and can be worked with and carved just as marble or glass. All objects designed with the material VetroFreddo® can be cleaned with any type of non-granular soap, using soft sponges or tissues.

In case of superficial damage (scratches), the damaged area should gently be rubbed with a sheet soaked in olive oil.

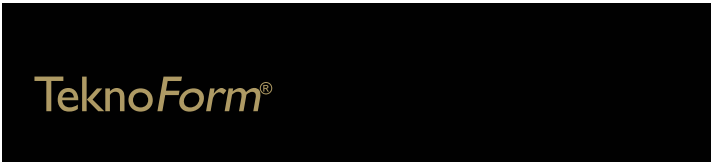

In case of deeper scratches or damage, a special replacement glass paper is available from the manufacturer for every colour and type of object.

Il Pert® è un polimero tecnologico dalle qualità eccezionali, che unisce un basso peso specifico ad un’elevata resistenza meccanica. Particolarmente adatto in quei settori dove l’esigenza della leggerezza del peso è fondamentale (nautico, aereo, camper...).E’ un materiale che permette la realizzazione di prodotti di elevato design, eseguiti a regola d’arte, rispettando angoli, raggi, bassorilievi e planarità con la possibilità di scelta tra una vasta gamma di colori, personalizzabili a richiesta.

Pert® is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (e.g. in nautical, aeronautical, camping, ...).

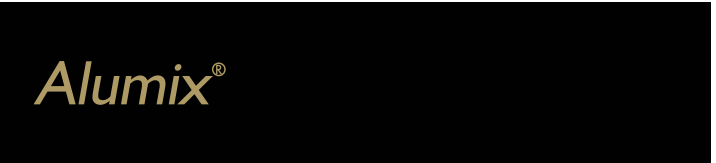

It is a material which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

TeknoForm® é il materiale delle “texture”, costituito da polimeri di varia natura, si esprime dando vita a prodotti monoscocca, esaltando le sue superfici. Dai mosaici alle pietre, dai marmi ai legni, tante soluzioni che danno vita a prodotti unici.

TeknoForm® is a polymer-based material. It expresses itself by enhancing the surface of its products.

From mosaics to stone, from marble to wood, an incredible variety of solutions can be realized in creating unique products.

Prodotto hi-tech, elegante e contemporaneo che nasce da una fusione di lega di alluminio. La decorazione é realizzata a pennello, con la tecnica del graffiato, per ottenere un effetto bicromatico. Il bordo é spazzolato e lucidato a mano, per valorizzare l’anima ed il colore tipico di questo materiale.

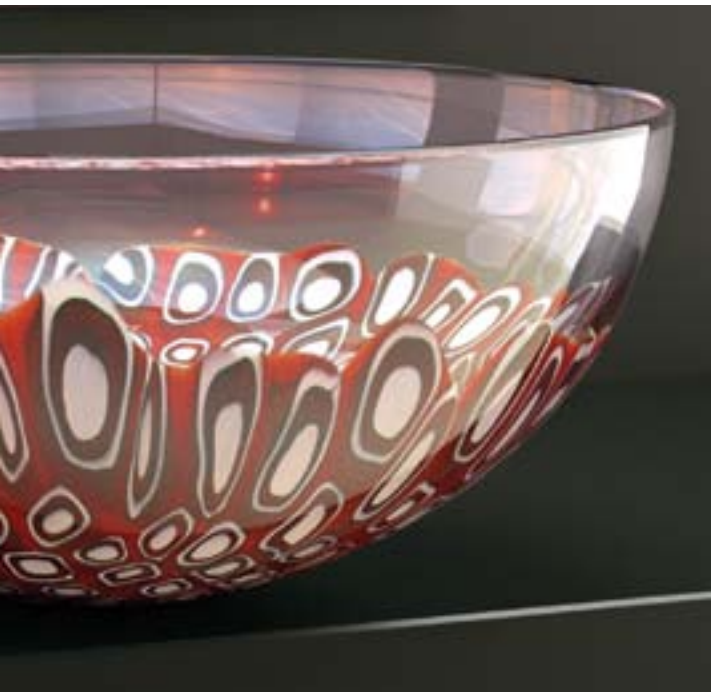

A high-tech product, both elegant and contemporary, born from a merger of aluminum alloys. The decorations are brush-painted, employing a special brush technique in order to obtain a bi-chromatic effect. The board is brushed and polished by hand to enhance the soul and color, which are typical for this material.

Il vetro di Murano è da sempre sinonimo di raffinatezza, leggerezza ed eleganza. I maestri vetrai hanno saputo sviluppare tecniche di lavorazioni privilegiate, nel rispetto della millenaria tradizione che rende il vetro di Murano un prodotto unico, prestigioso e inimitabile.

Murano glass is a synonym for elegance and timelessness.

By combining innovative techniques with traditional artisan workmanship, unique, prestigious and inimitable objects are created.

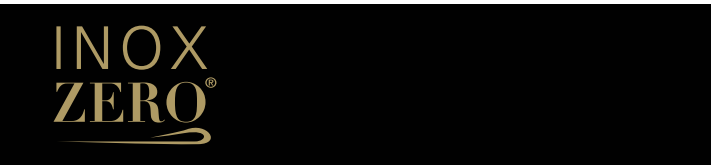

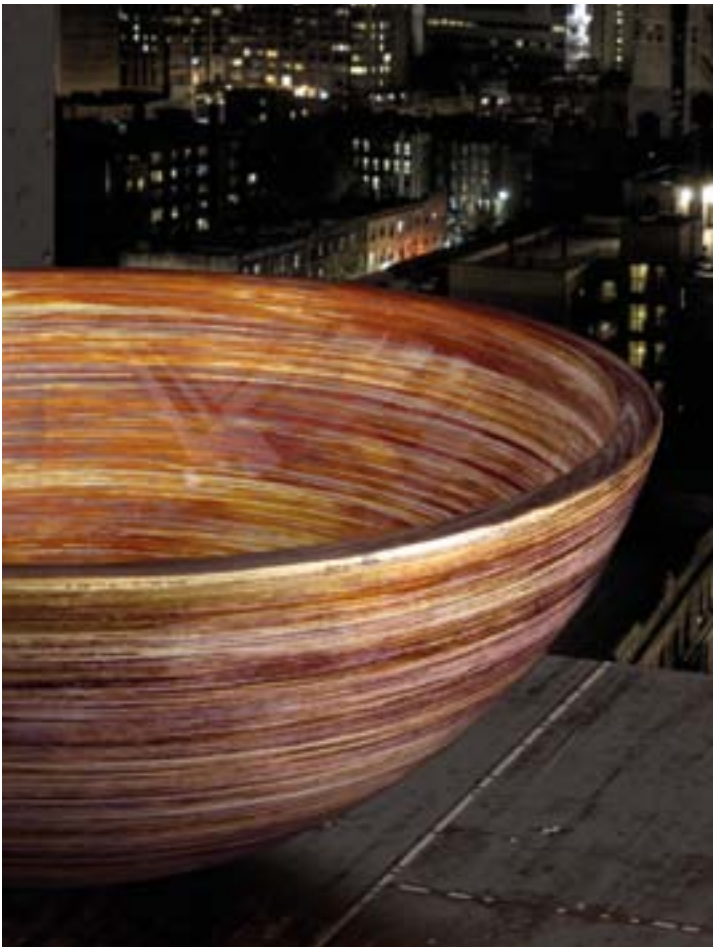

Collezioni esclusive, realizzate in cristallo purissimo al 24% pb.
Si tratta di prodotti raffinatissimi, soffiati a bocca e molati a pietra con abilità, dai nostri maestri secondo le più antiche e nobili arti vetrarie. Nessuna macchina, nessuna tecnologia, ma solo prodotti d'arte, classici, contemporanei ... futuristici.
Exclusive collections created from pure crystal with 24% lead content.
These utmost refined products are mouth-blown and bevelled in stone by our master artists according to the most ancient and noble glass arts. Neither machines nor technology are employed in the process, resulting in classical, contemporary or futuristic art products.

Il progetto Atelier nasce dalla ricerca stilistica che una nostra equipe interna realizza rivolgendo lo sguardo al mondo della moda. I colori e le texture che vengono rappresentati nel programma sono la sintesi delle nuove tendenze.
The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research.
The focus lays on enhancing crystal material with colours and textures of fashion trends.

Nuova tecnologia applicata per dar vita ad un prodotto inox (18/8) tridimensionale.
Peso specifico ridottissimo nonostante i volumi.
Varie sono le espressioni cromatiche dal colore tipico dell'inox lucido, spazzolato fino all'ultima generazione di colori high-tech.
The products of the INOX ZERO Collection are made out of stainless steel (18/8), utilising advanced production processes enabling the combination of expressive design with of low weight. A wide range of colours can be achieved, from timeless metallic shades to prestigious brushed and avant-garde colours.

Siliconio®, ultima generazione della famiglia dei siliconi. Via al design all'insegna dell'elasticità, dalle forme più rigorose che sfruttano le grandi potenzialità di questa materia, a quelle più bizzarre e originali. E' un materiale dalle forti sensazioni tattili: morbido, elastico, sensuale, unico. Siliconio®, quale materiale elastico, può essere sottoposto a torsioni, allungamenti e piegamenti ed in corso di rilascio torna alla sua forma originale. Siliconio® è idrorepellente, antinfortunistico, resistente a temperature tra - 60°C e + 250°C, lavabile, autoestinguente, atossico, dotato di resistenza chimica eccellente.
Siliconio® è Touch design per eccellenza.
Siliconio®, is the latest development in the family of silicone materials. Featuring unique designs based on its elasticity, it allows for rigorous shapes, benefiting from the great potential of the material, being amongst the most unique and original. It is a material of touch: soft, elastic, sensual – simply unique. Siliconio® can be bent and folded in any possible way, always returning to its original form once released. Siliconio®, is water-repellent and, soft, thus reducing the risk of injury, but also resistant to extreme temperatures from -60°C to +250°C, washable, self-extinguishing, non-toxic and with excellent chemical resistance characteristics. Siliconio® is 'Touch design' at its very best.
